The Official Publication of the Worldwide TV-FM DX Association

August 2001

## Boise '01: Great time; wish you were there!

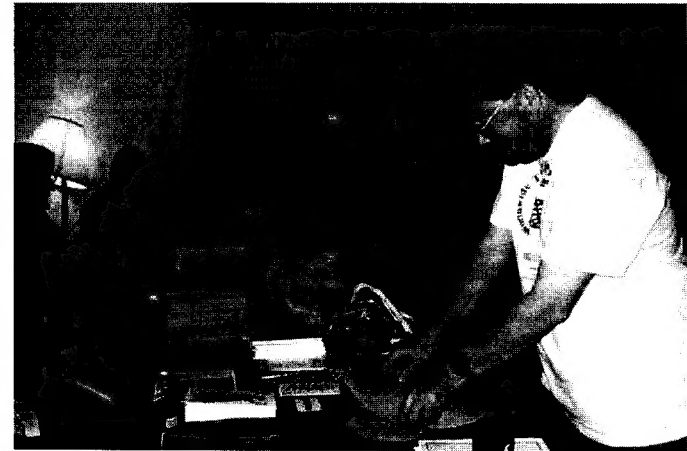

Board of Directors leader Tom Bryant delivers the "State of the WTFDA" during the business meeting.

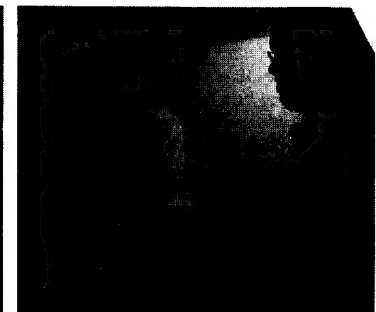

**24 attend WTFDA GTG in Idaho capital city**

Treasurer Dave Janowiak talks about the future of WTFDA and the VUD during the business meeting. The VUD will have a new publisher commencing with the September issue. (All photos courtesy of Greg Coniglio)

"Is there anyone who hasn't won a KBSU mug?" convention host Frank Aden asks as he mixes the tickets during the door-prize giveaways. Actually **EVERYONE** won a KBSU, probably including some lucky hotel maids ... if they looked inside select motel room safes.

After the banquet, Joe Gragg talks about his personal adventures with propagation.

Dave Nieman shows that a little DX is always possible during conventions.

## Worldwide TV-FM DX Association

*Serving the VHF-UHF Enthusiast*

The VHF-UHF Digest is the official publication of the Worldwide TV-FM DX Association, dedicated to the observation and study of the propagation of long distance television and broadcasting signals at VHF AND UHF. WTFDA is governed by a board of directors:

**Tom Bryant, Mike Bugaj, Greg Coniglio, Bruce Hall, and Dave Janowiak.**

#### Mike Bugaj

AUGUST 2001

Is it me or is this summer going by too fast? We are at the point now where E skip should be tapering off, at least up here in the Northern United States. No doubt about it, though, some of the greatest amounts of E skip around came from the west this year. You might remember that for the past few years the western states have been in an Es drought. Well this year Arizona and Colorado led the country in the amount of skip seen and heard. **Mike Hawk** and **Jim Thomas** cannot possible complain about lack of skip this year and **Kevin Redding** is grinning from ear to ear. On the other hand, the east coast had a great late June followed by over two weeks of terrible Es conditions that didn't finally end until July 14<sup>th</sup>, a day of monster skip in much of the country.

#### DUES AND DON'TS

The internet has been good to us and it's because of the internet that we have these new members: **David Hansen** from Fall Creek, WI, **Jacob Norlund** in Hermantown, MN, **Guy Falsetti** from Lockport, NY and **Niel Wolfish** in Toronto.

David Hansen is an old timer and former AIPA member. Dave checked out the membership list and was surprised to see the names of Dxers he was familiar with back in the AIPA/early WTFDA days. Jacob Norlund posted a message on the WTFDA Delphi website about problems with his VHF antenna installation. **Jim Brown** and I tried to help him out and I'm happy to see that things

are going better up in the Duluth area now. **Niel Wolfish** is a Dxing friend of **Saul Chernos** and just joined after getting as much grief as he could take from Saul regarding the WTFDA. And **Guy Falsetti** is another one from Lockport who knows **Rich Wertman** and does TV Dxing. I swear, somebody ought to have some of that Lockport water analyzed to see why so many TV Dxers grow up there. Of course I'm just kidding but it's great to see three folks from the same town all enjoying this hobby and each other.

On the renewals end we have the following list of WTFDAers who will be with us for yet another year. We have renewals from **Greg Coniglio(NY)**, **George Mileon(MA)**, **Robert Ross(ON)**, **Pete Giacopelli(NY)**, **David Flotman(MO)**, **Mike Lazaro(NY)**, **Eugene Hinton(CA)** (I'm especially glad to see Eugene here for another year), **Roy Barstow(MA)**, **Alan Michalek(MA)**, **James Paige(MI)**, **Mike Lapinski(NY)**, **Jerry Rappel(IA)** for an Associate Membership, **Paul Swearingen(KS)** and **Bob Timmerman(IN)** who paid for another year as Associate Member on the WTFDA list, **Charlie Tumosa(MD)**, **Neil Kazaross(IL)** for 5 more years, **Nick Lombardi(GA)**, **Howard Fountain(GA)**, **William Lindsay(WA)**, **Melvin Dishong(GA)**, **Steve Chudoff(PA)** and **Jim Renfrew(NY)**. Phew! All I can say is thank you for staying with us for another year!

From **Leslie Green(LA)**, "I would like to know what happened to full-power channel 62 which was being applied for in Hammond, LA and listed in the

[Mbugaj@snet.net](mailto:Mbugaj@snet.net)

W.T.F.D.A. TV Station Guide? There hasn't been a new full-power station for the Baton Rouge area since the early '80s, in which Fox affiliate WGMB-44 went on the air. I don't have cable or satellite TV so I only can receive about 6 channels including TBN-56.

WTFDA Western TV editor **Victor Frank** does something besides a column in the VUD. Victor is also the editor of the monthly *The 50 Mhz Bulletin*, a compilation of 50mhz VHF contacts around the world. If this interests you, send a note to PO Box 501 or email me and I'll put you in contact with Victor. (See p. 47 for a sample page -pls.)

#### CONRAD RDS MANAGERS

If you are one of the lucky people on the WTFDA list on the internet you already know about the popularity of the Conrad RDS Managers. The RDS Manager is a little box with an LCD display that shows the station's PS Code (call letters or slogan), local time, radio text (news of upcoming events, promos for other programs, etc) as well as type of format. A few of the units are out in the field and doing very well this summer and more are being used every day.

A few months ago when we first started talking about the RDS Manager we really didn't know what to expect with it. Most of us thought hardly anyone used the feature. Not enough stations do use RDS, but enough of them do use it so as to make catching RDS IDs a worthwhile endeavor during tropo and E skip openings. The RDS Manager works great during E skip, giving us IDs of stations that we would NEVER get call letters from. It works during tropo openings and it will detect the RDS from stations caught in MS bursts.

If you add PC logging software to your computer and hook the RDS Manager to your computer's serial port you will then be able to pick up RDS signals that even the RDS Manager might miss itself!

Just to give you an example of how RDS Dxing pays off, I myself have heard around 100 RDS here in New England, mostly E skip at this point, and from targets around 1400 miles from here. During the daytime I can read the RDS data from Boston FM stations around 85 miles from here. I can often read WHOM's RDS data when tropo is dead (this is about 180 miles).

If this sounds interesting to you, send a note to PO Box 501 and I'll tell Bill Nollman that you are interested. If you can get to a computer somewhere try emailing Bill at this address: [lsnwnn@home.com](mailto:lsnwnn@home.com).

Bill sold out of the first batch he got and went out and re-ordered batch number two. This time when these are gone there won't be anymore! If you seriously want one then don't be left out because there will not be another time to order!

News like this breaks out first on the WTFDA list. If you have a computer and don't mind a little email from the list, take the plunge and subscribe now. Send an email to this address: [WTFDA-subscribe@topica.com](mailto:WTFDA-subscribe@topica.com).

HOW I STARTED DXING

And now more of our never-ending feature that serves to remind us that, in our own unique ways, we're all strange. This one is from **Gus Mancuso**: "I began Dxing in 1962 when our local AM full-timer WINX changed from rock 'n roll to easy listening. Having no local "top 40" stations with decent reception, many teens quickly discovered out of town 50k watters like WLS, WABC, WKBW and WBZ. This coincided with the beginning of the 1960s sunspot low and I quickly logged hundreds of stations. Sometimes I would stay awake late into the night with my transistor radio under my pillow, finding many new stations. As I shared a room with my brother, I couldn't get up to write them down and had to hold them in memory until morning

In the early 1970s I set up a discarded TV roof antenna to enable me to receive low power FM college radio WGTX in Washington. This also brought in stations in southeastern Virginia but unfortunately nulled local WPGC. As I experimented with other antenna positions, I picked up more FMs from nearby states. Eventually I had to remove it because my father decided to put up a new antenna for the family television.

Fifteen years ago I heard of WTFDA and began to DX more intently than before, raising my 1970s total of a few score to eventually over 400 today."

Thanks for the letter, Gus. I remember being a kid of 14 and 15 going to bed at 11pm and setting the alarm clock for 1am and staying up until 4am, sometimes 6am, listening to skip on AM, then going to back to bed and getting up an hour later for school. I don't know how I did it.

#### LAST BUT NOT LEAST!

I want to thank **Al Tobia(CA)** for stopping by a few weeks ago on his way from New Jersey to a Lucent Technologies school in Andover, MA. Al stopped by on a sunny Sunday afternoon and we spent it mostly in my basement looking at my N scale train setup and staring at an empty TV screen set to channel 2 looking for traces of E skip. As luck would have it I was able to show Al a little bit of WPBT-2 and WESH-2 for a minute or so. What Al doesn't know is that right after he left the MUF went up to channel 6 and hit the FM band for a while. Al also got to see my RDS Manager which impressed him less than the E skip we watched. Oh well. Write! -Mike

**From the Publisher ...** No room ... after mashing about 56 pages of material into 48 ... except to thank the WTFDA for giving me the opportunity to help out for these four issues, and especially to Mike Bugaj for volunteering so that four issues was all I had to do! It's been fun, but I need to concentrate on my day job and my "other" publication, *DX News*, and perhaps even some DX'ing ... maybe I'll even put up my TV antenna again, if I can free it from the clutch of the vines on top of my carport! -pls.

**KZBQ**  
**FM 93.7**

## 24 TV-FM DXERS SKIP INTO BOISE

(Written by Tom Bryant)

Close to ten percent of WTFDA's membership turned out for the 2001 convention July 27-29 in Boise, Idaho. This location marked a new site for our club get together, and an opportunity for many to explore new territory. Considering that a substantial number of those attending didn't register until very close to convention time, the excellent turnout was a nice surprise for everyone; particularly our host, Frank Aden who kept everyone hoping with a full agenda of activities.

The convention HQ room at the Super 8 had tables loaded with handouts... including a local candy bar appropriately named "Idaho Spud". Those arriving early were treated to several station tours on Friday. Evening activity included a comprehensive talk by Frank Aden on the history of Idaho television. A lot of quirky TV happenings occurred over the years, and Frank's thorough research has preserved many facets of timelines and events which might otherwise have been lost forever.

Saturday activities were highlighted by a trip to the Boise FM-TV antenna farm. At 7100 feet, the Deer Point site atop Shafter Butte gives the stations a clear shot into the major cities of the Boise River valley. Other activities of the day included a talk about the history of the DuMont TV Network and an accompanying videotape. That was followed by a TV trivia quiz.

The dinner and business session that evening was well attended. The comfortable meeting room at Perkins Restaurant proved to be a perfect place for WTFDAers to dine, visit, and catch up on club happenings.

Among business items was a presentation by Treasurer Dave Janowiak, in behalf of the club, to retired VUD editor/publisher Bill Thompson. Bill, who had previously been given a plaque recognizing his contributions to the club, was further honored by the presentation of a framed certificate reading: **"In recognition of meritorious service the Worldwide TV-FM DX Association honors BILL THOMPSON by hereby awarding him the status of dues paid LIFETIME MEMBER"**. Thompson, who was unable to attend, will also receive a check for \$24 (refunding the membership dues he had paid just prior to his health-mandated exit from the position he had held for almost 25 years).

Gratitude was expressed to Paul Swearingen for volunteering to temporarily assume Thompson's publishing duties on very short notice, and his excellent job of keeping the VUD in print and on time during that period. Beginning with the September issue, yet another change will take place as Mike Bugaj assumes the editor/publisher role.

Tom Bryant announced that he is stepping down as convention coordinator, and urged anyone interested in filling the position to contact him or any other member of the Board of Directors.

Bryant also announced that the 2002 WTFDA convention would be hosted by John Zondio in the Oklahoma City area at a date to be announced later.

Four of our five board members were present in Boise, and in addition to the remarks and announcements by Janowiak and Bryant, Greg Coniglio and Bruce Hall also spoke briefly to the group. The session at Perkins concluded with a discussion of tropospheric propagation and DTV, with Joe Gragg fielding the questions.

Back at our headquarters at the Super 8 we got mugged, LITERALLY! Our host had amassed a huge supply of coffee mugs from various stations, which were given out as door prizes. An auction following the "mugging" added \$60 to the club treasury.

After the scheduled Saturday activities quite a few of the group scoped out downtown Boise, which to everyone's surprise was a beehive of activity. The streets were filled with parties, many stores and shops were open, parking places were almost impossible to locate, and in general it was a lot livelier scene than most had expected to find.

While Sunday morning saw quite a few begin their trips back home, a larger than usual number remained for the day and drove or flew out on Monday. About noon a group traveled to Bonneville Point overlooking Boise and the "Treasure Valley" from the east. The vast expanse of the west was evident at this outlook; particularly noteworthy as a point on the "Oregon Trail". Some of the ruts made by westward bound wagons are still visible. After our taste of the old west, an informal lunch at Denny's wrapped up the weekend of activities.

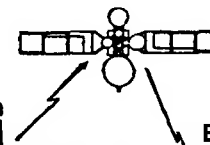

It should be noted that an operating DX shack was not set up at the convention because there is virtually no tropospheric activity in the valley, and chances of late season Es weren't too likely. What the Boise convention might have lacked in DXing opportunities was more than replaced by "Gem State" hospitality.

Many thanks to Frank Aden for his efforts, which added up to another successful WTFDA gathering.

### THOSE WHO ATTENDED:

AZ: Ray Leko

Thanks to Frank Aden, Fernando Garcia, Danny Oglethorpe, Chip Kelley, Jeff Kruszka, Les Rayburn, Tom Yingling, Bob Timmerman, Matt Sittel, Larry Hart, and Joe Martin for information appearing elsewhere in this month's column.

Note that the FCC (and the applicant) have forgotten the location of the Mississippi River again, assigning WBXF-CA to a station in Des Moines, Iowa...

Both Larry and Joe noted new station KAZA-54 in the Los Angeles area. It's running Spanish-language music videos right now. Joe notes the KAZA transmitter site is within a mile of that of KVEA-52, KDOC-56, and KLCS-58. Until the DTV transition, this would not have been possible - stations at the same site had to be at least 6 channels apart.

Fernando reports a change in the name of the XEQ-9 network in Mexico. As of early June, this network is now "Galavision". There does not appear to be any connection of the network with the same name in the U.S..

Danny believes formerly-independent XHFM-2 Veracruz has joined this network - he's been seeing Galavision on that channel during openings to that area.

New ABC station WKDH-45 in Mississippi has some kind of relationship with existing stations WTVA-9 and WLOV-27. The three stations' websites are all cross-linked (indeed, they're all running on the same computer...) At one time, WLOV had a LMA with WTVA, but best I can tell

such a LMA would now be illegal under FCC regulations in a market like Tupelo which only has four commercial stations. Adding another LMA with WKDH would seem even less likely to pass FCC muster!

New member Les Rayburn has some information about WOTM-LP. The call letters stand for "Over The Mountain", a local reference to those who live across the mountain from downtown Birmingham in Shelby County. According to Les, 80% of WOTM's programming is infomercials, with real estate shows, a local talk show, and local church programs filling the other 20%. The station is on a number of cable systems in the area. Pax's WCPX-DT Chicago got some publicity for massive use of multicasting, and now we have another Pax DT station on the air in the Washington area. Tom Yingling says this is the first DT he's noted multicasting, with six programs being carried:

Channel 43-1: TLN  
Channel 43-2: Worship  
Channel 43-3: Praise  
Channel 43-4: Pax West  
Channel 43-5: Pax Mountain  
Channel 43-6: WPXW-TV (parallel to analog channel 66)

Using the WinTV-D card, you can select multicast channels by "...right-clicking on the TV window and HOLDING the mouse button for about 2 seconds. This will bring up a short menu, from which you can choose a program." Tom noted another way of cycling through the programs - if you tune to a multicasting station, then change channels, then change back, the next time you get a different program. DTV DXers should keep this in mind, especially if they have an unID. It may be carrying another program that "can" be identified.

Bob notes WTTV-4 is carrying a 10:00 newscast produced by WRTV-6. The "WB4" and "RTV-6" logos are both carried at the same time - and the whole mess is simulcast on WTTK-29..

Hopefully this month's column is more-or-less coherent. I keep getting distracted by skip and the need to prepare for the trip to Boise...

# FM NEWS

## KEY TO ABBREVIATIONS:

&: satellite programming  
AF: New frequency allocation **accepted for filing** for a new FM license

AFA: American Family Association  
CC: **call letter change**  
CL: **city of license change**  
CX: **a construction permit** has been canceled  
C1,C2,etc: a change in status to that FM license class  
DA: **directional antenna**  
DE: station has been **deleted**  
FC: **format change**  
GA: **granted amendment** to the table of FM allocations  
GE: **granted extension** of construction permit  
GX: **granted replacement** of expired permit  
LC: **license to cover** filed (means station is ready to come on air)  
MC: **multiple-city legal ID**  
NC: **no change** yet on areported change/permit

ND: **non-directional antenna**  
NO: **not on the air**  
NS: **new station** granted  
NW: **new station** signs on  
OSA: **one-step application** granted for change  
PA: **proposed amendment** to change FM table of allocation  
PC: **power change** on the air (">" for increase, "<" for decrease, when known)  
PG: **power change** granted (">" for increase, "<" for decrease, when known)  
QC: **frequency change** occurred  
QG: **frequency change** granted  
RA: **silent station returns to air**  
RE: station **requests extension** on permit  
RX: station **requests replacement** of expired permit  
SG: **slogan change** or update  
SI: **station is silent**  
XA: **dismissed amendment** to FM allocations  
XC: **transmitter site change** occurred  
XG: **transmitter site change** granted

# PHOTO-NEWS

Jeff Kruszka, Editor  
5024 S. Braxton Ave.  
Baton Rouge, LA 70817  
jkruszka@bellsouth.net

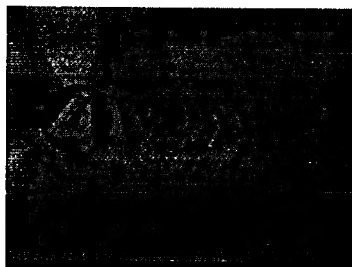

August, 2001 - First of all, I apologize to everyone and especially to Chris Carter for the mistakes in last month's column. This was somewhat due to a formatting discrepancy between my word processor and the publisher's, which led to an inability to match the data to the photos. The correct order of photos are (p. 12): KFYZ-5 Bismarck, ND, KTCA-2, St. Paul, MN, WCCO-4, Minneapolis, MN, and WJBK-2, St. Paul, MN; and on p. 13: WGRZ-2, Buffalo, NY; and KOAA-5, Pueblo, CO.

Now for this month, we have some recent E-skip photos from Matt Sittel, of Bellevue, NE:

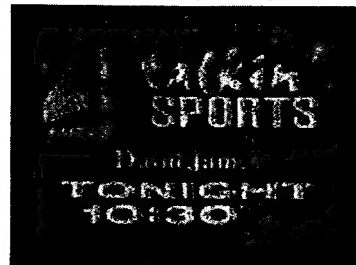

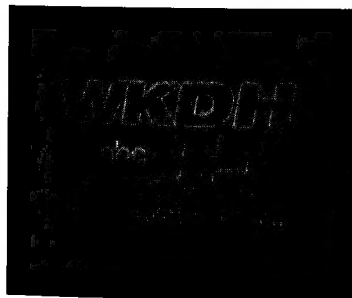

KUTV-2 Salt Lake City, UT  
849 mi Es seen 6/17/01  
@2228 CDT

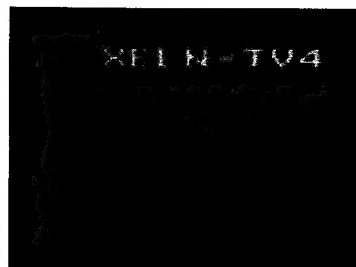

XELN-4 Torreon, CL  
1161 mi Es seen 6/13/01  
@1900 CDT

WESH-2 Daytona Beach, FL  
1176 mi Es seen 5/12/01  
@2234 CDT

WRC-4 Washington, DC  
1007 mi Es seen 6/21/01

1325 KTX-5 TX Lubbock, audio 1016  
KTX-5 is the first skip ever atop local WAGA. "This Old House made possible..." matches listing for KTX-5 and doesn't match any other listings in the nation.

Finally... SOMETHING happening in DX around here. First new loggings since December. Big opening to north TX, OK, CO, Dakotas, NM. June 3 opening brought stations in on every channel except 47, 56 and 68, a level of activity quite rare in Atlanta. Jim. (Jim, your last report only contained 3 loggings. Did part of your report get lost in cyberspace like the column? I'd love to hear about that big tropo opening!- mcs)

John Vervoort, Brooklyn, NY  
Equipment used: color RCA XL100 13", Radio Shack indoor antenna and out of production Archer booster.

1800 unID-3 ABC

6/21 Es  
2029 KDLH-3 MN Duluth  
2128 KMTV-3 NE Omaha  
+ unIDs on 2, 3 ABC, NBC, 4, 5

Notes: the May 8 tropo was weak and did not last very long. The E-skip event of June 4 is my first Es catch since June of 1997. I only detected activity on ch. 2 and 3. The MUF was about 66 MHz. The station on ch. 3 was determined to be an ABC affiliate when I checked it against my local ch. 7. The NJ Devils hockey game was being broadcast nationwide. About 60 minutes after I discovered Es activity, the signals faded and I was unable to make positive IDs. The nearest ABC ch. 3 from my location is WHSV in Harrisonburg, VA about 339 miles.

I finally have some E-skip action going on around here! I have not had any tropo since the early 90s. However these new loggings are very valuable! DX on channel 6 is not possible at this time due to unidentified interference. I will try to DX ch. 6 on my FM radio. I also have a very strong ethnic station broadcasting on 87.90 MHz! It is causing me problems on ch. 6 audio carrier 87.75 MHz. (John, please note the address to send your reports at the upper right hand corner of the first page of this column.-mcs)

All stations were received on an old Zenith B&W TV with a set of rabbit ears. At the moment, I am constructing a more serious TV DX shack, complete with 50-foot tower, log antenna for VHF, dish for UHF, rotor, etc. Hope to have much more to report for the next time!

**Jim Renfrew, Byron, NY**  
Equipment: JCPenney B&W TV, rabbit ears. All times EDT.

I'd have to guess 61 and 65 unIDs are from the Ottawa area. CIVO was so strong around 2330 that it caused serious interference to 29 Buffalo and 31 Rochester! Re: unID 45: at one point a Fort Erie address was shown. Who is this? Not in Doug's database.

Icom no help

Notes:

1. Thanks to Fernando Garcia for identification on this station. Also thanks to Jeff Kruszka for his help on this station. So things were happening on July 4 and 5 of 2000. Three new countries within a 12-hour period, not too hard to take.

During last days of April and until May 10, eastern Virginia and eastern North Carolina was in 10 days out of 12 days. Many repeats not listed.

Our 33<sup>rd</sup> wedding anniversary was fast approaching and my dear wife turned to me and said "what shall we do to celebrate"? So I said "We could go down cellar to my shack and take turns rotating my new toys!!".

An OK season so far. Unfortunately, my rotor broke down in late June and stranded my antenna in a northern position (not where all the skip comes from). I guess it's OK, since it's been up 5 years. Look forward to a new antenna system for next year's reports (in the meantime, I'll have to make due with what I have). 73s and good DX, Ryan.

November saw the highlight of the F2 DX season with definite video on NZ Channel 1 fading up in sync with the video buzz on the scanner. Too brief for any possible ID. DTV snow is now seen on 66 Toronto. I won't count any DTV in my log until I have a receiver (no rush for that!). New KBEJ-2 Texas seen twice already despite its ~1400 mile distance. 5/31 Es on 116.8 may have been Dupree, SDI (Though no TV seen from that area). June 2001 ending up being a dull one for Es... nothing out of the ordinary. No west openings at all. Just 1 east opening. Lots of relogs...often 2 days in a row. Exception was 2 new channel 5s. Tropo has been dead.  
See the format Bill Hepburn used above? If you're looking for a style to emulate for your reports to ETVDX, that's the style that I like best. I realize many of us use different methods and formats of keeping track of their DX, but when it comes to ETVDX, a common format is needed for readability and consistency. Plus it saves me time in reformatting, editing and generally tidying up your reports. Make your editor happy; use this format when you report!  
I'm very glad to see a big column this time, even if it WAS two months worth... keep on reporting; I look forward to hearing from you! 73s Matt

Dennis Park Smith, 3605 San Remo Drive, Santa Barbara, CA  
93105-2523 (805)687-7803

This report is for June 2001, with Dxing in Santa  
Barbara in southern CA, Wasco in central CA, and  
Paradise in northern CA.

## Santa Barbara Report

Southern CA coastal tropo on TV-FM to San  
Diego/Tijuana (200 mi/315 km) has been only poor-  
fair this season, but was finally up to good level  
June 14 and on. Reason apparently has been in-  
version layer boundary elevation: It has been quite  
high, 2000' ASL and higher with resulting poor-fair,  
but lowered starting June 14 to apx 500' which im-  
proved signals. My elevation is around 100 to 250'.

June 1: Variably poor (continuing from May 8-31)  
June 2-3: Very poor (apparent variations in layer height and in-  
tensity)

June 4: None  
June 5 am: Very poor  
June 5-9: Out of town, in Wasco and Paradise  
June 9 aft-10: Poor  
June 11 am: Fair  
June 11 eve: Deteriorated to very poor  
June 12-13: None (passage of weather front)

June 14: Fair, improving  
June 14 eve-17: Good (weather report said low inversion)  
June 18: Fair  
June 19-25: Variably fair to good  
June 26: Poor (weather front; rain in N. CA)  
June 27-29: Var. poor to fair  
June 30: Fair to good

The one unID signal during the relatively im-  
proved tropo June 14-25 was the CCI behind local  
KKFX-LP 17. The entirely unID signal finally  
showed on audio as a "shwishing-FM" sound which  
was synchronous to KKFX itself. KKFX translator/  
on-channel booster?

## Skip DX in Santa Barbara

June 11: some apparent Es was heard on my car radio at 8+A.M.  
PDT: Ch. 6 audio, a sitcom, over & under 200-mi tropo  
XETV-6 Tijuana "Fox 6 News". Also FM on 92.3, see  
Southern FM-DX.

June 16: some Es was noted briefly on TV with indoor whip on  
Ch. 2 at apx 5:45 A.M., unID.  
June 23: Es on Ch. 4 before & after 8 A.M., Spanish talking,  
unID, zero-beat to regular zero-offset 90-mi KNBC-4 Los  
Angeles.

## Wasco Report

I was in Wasco only overnights on June 5 and  
June 8. No significant DX was noted during those  
times.

## Paradise Report

Paradise is on a ridge in northern CA where I  
was attending my daughter's June 7 high school  
graduation. Wildwood Motel is at apx 1800' ASL  
or about 1600' above Sacramento Valley floor, June  
6 aft to June 8 A.M. Instead of CATV or MATV, this  
motel has Channel Master antenna and splitter  
system on on-air channels. Antenna is aimed gen-  
erally south to Sacramento, San Francisco, and  
Santa Rosa. The terrain is open to the south  
around to west, but is mountainous to the north in  
the direction of Chico and Redding. However, two  
premium services are inserted into the motel TV  
system by the owners with full double-sideband  
TV signals (not vestigial suppressed single side-  
band), effectively covering the width of two chan-  
nels, with aural frequencies of each service both  
4.5 MHz above and below the visual frequency.  
Here are the N. CA stations seen during my motel  
stay, June 6 to 8.

I have belatedly listed a station observed in January, KORO-28, Corpus Christi. Recent return and enhancement of a photo made identification possible. At 1072 miles, the logging is my most distant. (See details in this column for March VUD of other stations received in the same time frame).

Unusual atmospheric conditions resulted in crop into SD and MN on June 11. A severe storm alert was in effect for much of SD and NW IA. No local enhancement and a Monday morning made for perfect conditions; however by 0400 enhancement of locals killed the opening. Lowery-11 was received through Sioux Falls 11. Brookings was through Moline 8 and Vermillion 2 was through

Cedar Rapids 2. The SDPTV station list was on all night.

After midnight on June 12, I saw one hour of snowfree tropo into KS. Wichita 10, Hutchinson 12, and Topeka 11 were seen. Only the upper VHF and lower UHF bands were open. I haven't seen the above stations in years. Thunderstorms were in the area. I've seen brief intense tropo on the VHF bands before under these conditions.

I saw Cuba on various days at 0945 and 1410 with familiar TP, and at 1700 with news.

In early July there has been some intense tropo with little distance but some great signals. Included have been KLNK-8, KMEG-14, KXVO-15, KTVG-17, KDOR-17, KMIZ-17, KAAS-18 knocking out KCPT-DT 18, KOZK-21. K22CX-22 Lincoln, KPWB-23, KYNE-26, KWCV-33, KPTM-42, KPTH-44. Other nearby stations from Oklahoma, South Dakota (KLDT-46), Iowa, and Missouri have been in with lower quality signals. Too many to mention.

Mostly trop noted this time around, after the E-skip of June 1. The June 10 opening only reached Channel 2, but did note the WA10JB beacon (50.065 MHz)

on my handheld scanner. Mostly stations within the 325-mile range in these openings, although some were coming in with semi-local to local signals.

Sitting on 413 stations as of 6/18/01.

E-skip seemed to be the dominant feature of the past several days. June 21's opening noted two new stations from

Wilmington, NC, along with a new Canadian (CBMT-6) and, for the first time at this QTH, KTVS-3.

Now easier to ID with UPN affiliation //20 Denver. Set the record for the shortest TV E-skip when I

logged KPLO-6 (CBS for Pierre); logged main station KELO-11 via

trop last year. That beats the old record (CKVR-3 Barrie, ON) by

90 miles (145 km). June 25 started with a trop opening into

Chicagoland and northwest Indiana, then an E-skip opening that

started toward the Northeast, then moved into south Texas/northern Mexico (Fernandopolis).

Only trop was noted on June 26; the opening of June 27 enabled

me to watch two noon newscasts on the same channel, two hours

apart. Added KREG-3 to the logbook; it was in like a local at

times. Tampa was the only South-

eastern station noted on 3. The opening toward ID on June 28 netted several FMs, but KIDK was in like a local. During the work week of June 25-29, KYW-3 was noted four days out of five. As of June 30, my total stands at 419.

73, Eric (N0UIH)

This was a good TV skip season so far, about on par with 2000. I still have about 60 hours of skip I videotaped while at work to review! Not a whole lot of tropes so far this year. 73s Matt.

18:05 Unid 90.9 spanish, still need to figure out  
June 21, 2001 Es  
Nice !!! 1st Eskip station of the opening and RDS kicked  
right in !!!  
20:09 KKPT 94.1 Little Rock ARRD PI=4E28  
PS=KKPTFM "The Point 94.1"  
20:16 KKEY 95.9 Harrisburg AR Oldies 95/9  
20:17 KHLS 96.3 Blytheville AR 96 Country  
20:22 WLZK 94.1 Paris TN  
The Lake  
20:27 WYNU 92.3 Milan TN  
RDS - PI=956E PS=WYNU "Power 92.3"  
20:30 WAFR 88.3 Tupelo MS  
RDS - PI=553B RDS ID only !!!  
20:36 unID 94.9 Kiss FM 94.9 ??? maybe  
Concordia, KS ???  
20:44 WJAB 90.9 Huntsville AL "in Harvest" -  
// RealAudio over Internet too  
20:47 KMFY 96.9 Grand Rapids MN  
20:56 KCMO 94.9 Kansas City MO  
21:00 KYNU 98.3 Carrington ND RDS -  
PI=A5C6  
21:01 KFNW 97.9 Fargo ND  
21:07 KQWB 98.7 Moorhead MN Solid Rock  
Q98  
21:11 KQDY 94.5 Bismark ND  
KQ94.5  
21:18 KNSW 91.7 Worthington MN RDS -  
PI=343E PS=MPR  
21:28 KBUZ 90.3 Topeka KS  
RDS - PI= ??? why ? because I swung the  
antenna to get the station in better and WAMC(NY) came in  
and blew away KBUZ's RDS. The station  
never came back strong enough to ID again !!! This should  
only become a regular problem here in the US !

Es on June 1 produced another new Mexican in XHUA 90.1. It was nice of them to give the calls in Spanish (thanks to taking one year of college-level Spanish!). The Es opening on June 10 (not mentioned in this report) only produced the WA1OJB beacon from Maine on 50.065 Mhz. Mostly tropes through the first part of the month, with several new NOAA weather radio stations added to the logbook. The June 11 opening brought KZZ39 on 162.500 in the clear, but it was a battle to hear WWF76 on 162.475 with Hannibal, Salem and Peoria all on the same frequency. KZZ39's programming comes from NWX Pleasant Hill, MO, while WWF76's programming comes from NWS Springfield, MO. Finally noted some DX through local KDO89 on 162.550 Mhz, hearing WXJ90 on June 17 (serving the Lake of the Ozarks from NWS Springfield, MO) and WXJ76 on June 18 (serving Champaign/Urbana from NWS Lincoln/Springfield IL). NWS logbook now stands at 24 since the first of the year. I keep a separate log for FM.

The opening of June 21 did bring in a new one in KLGT 92.9 with ads for the Sheridan area. June 25 was mainly a Mexican opening on FM; even heard a Mexican police or fire department on 37.18 Mhz! June 27 brought in a new state in Delaware (WJBR 99.5, completing the eastern seaboard from this location), plus a new New Jerseyite (WOBB 92.7), a new Virginian (WBPS 94.3) and a new addition to my Maryland logbook (WFBR 94.3). Of course, I couldn't get the 102.5 simulcast, no thanks to KEZK being parked there! Also noted WBZS 92.7 for a call letter change (first noted them in 1998 as WMJS). Later on, Phoenix would make it in. KZON 101.5 aired a very crude,

unprofessional talk show with frequent use of profanity (a no-no under FCC rules) and sexual innuendos. This is just one poor example of how far commercial radio has gone downhill since the Telecom Act was passed, in my honest opinion. Es into Quebec concluded the day of June 27. CFLP is now on 102.9, defecting for the AM band (in which Canada is making an effort to clean up).

June 28 allowed me to virtually clean up on the Billings market (home to Daxers John and Nancy Johnson). Any Billings station not blocked by a St. Louis station was fair game. Another new state was added in Oregon (KZGH 98.7), along with more FMs from Utah, Wyoming and Montana (other than Billings). KWYS 102.9 is only my second Idaho station at this location (the only other one heard

was KKMV 92.5 Rupert on December 31, 1994). The number of stations now total 677, with 38 call letter changes noted. Delaware is state #44 from this location, while Oregon is state #45. I only need California, North Dakota and West Virginia to complete the "Lower 48" from this location. 73, Eric (NOUIH)

On June 16 (during the opening to New England, Quebec and the Canadian maritimes) I had a weird unID on 96.5 broadcasting in Spanish.  
The June 28 opening was my best FM Es ever. I had more new-to-the-log stations on the mega-opening of July 1, 1995, but those were new to a log that had half as many stations as I do now. Nine states were logged.  
KTYL, KFRO and KXAL break my record for the shortest FM Es; it had been about 570 miles with WWSE Jamestown NY. I am not surprised to learn Bob Timmerman had channel 7 Es about that time (congrats Bob!). KUFM and KIKX both would have beaten my longest skip record if not for that freak logging of California last summer. Sure would have loved to bug Oregon or Washington!

## Dennis Park Smith

3605 San Remo Drive  
Santa Barbara, CA 93105-2523  
(805) 687-7803 - PDT

Car radio (stereo FM receiver) with vertical whip in 1993 Ford Taurus wagon

On June 11, a bit of apparent Es was heard in Santa Barbara on the car radio, along with channel 6 audio at the same time (see Western TV-DX). Around 8AM, for several minutes, on 92.3, "Real Country" was heard over and under regular 90 mile "Mega 92-3" Los Angeles. No actual ID of the country music station. Best of DX to all, Dennis.

## From the Editor

Thanks to all for the great support this month!

already have some material on hand for September, including a great report from Mike Hawk and my own loggings for the season. See y'all next month!

# The 50 MHz DX Bulletin

Volume 12, Issue 5

May 2001

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schmitt K2HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K4FY. Subscriptions cost an \$24 U.S. 1st class mail. \$27 Canada/Mexico airmail, and \$30 by airmail elsewhere for 12 issues. Contributions and DX reports should be sent to Victor E. Frank, K4FY, 12430 Highway 134, Woodside, CA 94062-8754 USA. My Internet address is [frank@horizon.net](mailto:frank@horizon.net). I am asking no 35% discount but have a sub site under construction at <http://www.qsl.net/k4fy>. The bulletin may be freely quoted, provided that credit is given.

## Francis D Shepard, W7HAH

"Shep" passed away around 7 PM May 15, 2001 in St. Paul's hospital, Missoula, MT of a growing list of ailments. Among his many accomplishments were DXCC on 160 through 2 meters and a leading position in 2m EME standings with a four Yagi system. The callbook indicates he had an Advanced class in 1972 and an Extra class when he died. He will be missed.

## Joe C. Patterson, W5VY

"Pat" passed away May 9, 2001. He was 93. He was active on 30 & 144 MHz in the 1940s and made the first 50 MHz contacts from the US to Uruguay and to France. In June 1950, he worked W5WV for the first known 144 MHz Es contact. He was also the first US station to work all states and 100 countries on 6m.

## George Vernadakis, SV1AB

SV1AB passed away May 24, 2001. George was born in Paris in the twenties and was licensed as IY9NW in Mar-tilles until the mid-80s. Then he moved to Athens, Greece where he was active in DX and VHF/UHF. He was a founder of the "Radio Amateur Association of Greece", which he presided over for several years.

Additional losses this past month include LX15L, age 80, on May 10, and Sir Steve 845, age 97 issues, on May 31, when editor SM7AED announced this would be the last.

## DX Operations

Most of the listings in this column come from Sir Steve 845 by SM7AED. The 50 MHz DX Bulletin by OZ6OM, and SMIRK.

Camden, NJ7ABR: is planned for July 21-August 2. They will run a beacon on 50.490 all of the time (with a 30 sec. receive time), but also advise notify any one of the hf-stations if the beacon is being heard. <http://www.dx-pedition.de>

Mongolia, JT1Y: Nicola, MSNY, and Gianni, BK6Z, are should be here, on 160-6m. For how long we don't know.

Crete, SV9PBB: Laurent announced that he will be QRV on 160-6m from EU-015 from June 25 to July 1 with an IC-706 MKII and a long wire.

Sardinia, IS8FEDZB: Fred will be active from JN40 with 100W and 3 el. from May 13 to July 31.

Malawi, ZQ7: Five Japanese hams will be QRV from here June 6-19. This is primarily an hf operation, but they have an IC-706 MKII and a 5 el beam on 6.

Croatia, 9A8B: S53IPA and S37AX plan operation on 80-6m from Kolocep Is. (EU-016) from June 25 to July 7.

Finland, OZ8AWA: a group of Finnish operators will be active from Hailuote Is (KP14) between June 29 and July 5.

Almad Islands, OH8JWI, OH8JWE: Peter (DL5FF) and Hadi (DL2PT), respectively, plan to operate all bands (with special attention to 6m) from EU-002 on June 10-22.

Market Reef, OH8J: A group of Finnish and Japanese operators plan to operate with three stations on 160-6m from EU-053 July 12-16. They will participate in the IARU HF World Championship July 14-15 as OJ01.

Borneo, OZ8OM/VF9: Adrian is planning to be QRV July 14-22. He is taking 2 HF-6m radios, 100W in a 5 el. He indicates that visitors to VP9 are only allowed 100W.

Iceland, TF1AGEL: will be QRV 6m mobile from many grids between July 12 and August 2 and thence to OY (Faroe Is. 1st August 5).

Greenland, OX3NUK: now has a 50 MHz 50W rig with 5 el beam, and has heard VE8BY and TF35LV.

St. Pierre & Miquelon, FP/KT1J: indicates that he hopes to be QRV from FP again "this summer".

Canada-VE2: From June 15 to July 15, all holders of VE2 prefixes may use the special prefix CQ2, and holders of VA2 prefixes may use the special prefix CF2.

Honduras, HR3WFM: Ilaro JA6WFM, will be here for one year and active on HF and 6m.

Trinidad & Tobago, 9Z4BM: Leon is QRV on 6m with an IC 756 with 100W into a 5 el Yagi.

US Virgin Is., KP2: Acc. W4WTA, will be in St. Cross, FK77 from June 6-16.

Nauru, ZL1RH: Rex, VK8RH was active from Nauru (RU-39) on May 12 and hopes to return from time to time. He used an IC-706 to a dipole, which he hopes to upgrade to a beam next visit.

Salpan, N. Marianas, KH0JFBRK: will be QRV on HF and 6m from June 22-25. KH0JA/TCE will be QRV from June 29-July 2.

Victor Frank also publishes this fine newsletter; see Mike Bugaj's "Mailbox" on p. 3 for more details if you're interested in it.
